FIELD & CO.

On-trend nostalgia, with Field & Co

Fusing nostalgic style with modern-day quality in a highly fashionable look, Field & Co is our new brand of bags. Affordable, yet durable, Field & Co's collections satisfy the promotional market's demand for on-trend products at a less expensive price than comparative retail counterparts.

BRIGHTtravels brings smarter packing to every trip

BRIGHTtravels presents a clever collection of packing solutions that enable you to travel lighter and smarter. Specially designed for holding and organising your in-transit essentials, they take the stress out of packing and make it easy to access the things you need on-the-go. It's time to re-think the way you travel.

CALIFORNIA innovations nordwald equipment

California Innovation delivers ingenious cooler bag quality.

Since 1986, California Innovation has been leading the way in softsided insulated products. Avenue is now delighted to offer a selection from their diverse range of high-quality cooler bags.

Designed for all-round impressive performance, California Innovation's bags complement extensively tested temperature preservation with ergonomically designed shoulder straps, so carrying your cooled refreshments is as comfortable as possible. The inspiring choice of models can be rolled, carried or slung. For the ultimate cooler bag experience, California Innovations has it all!

Discover Elevate's new entry level bags

Elevate's new Milton range of bags extends the brand's accessibility with four entry level models. Slightly more basic in design than the main range, but maintaining the same great quality Elevate has built its reputation on, these offer sporty style with distinctive blue accents. Next to this fresh Elevate bag collection we also offer a brand new global Elevate apparel collection in

Label catalogue.

Go vintage with Slazenger's Chester bags

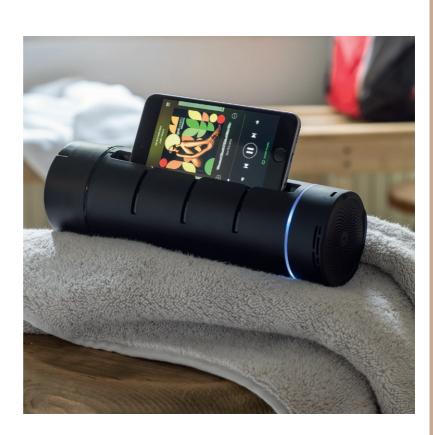

Slazenger's new Chester range of bags delivers modern day functionality with vintage styling. The five on-trend models, which includes a laptop bag, are ideal for a variety of different purposes and preferences. Dark blue polyester finished with brown imitation suede details creates a broadly appealing look. Also check the new on-trend retro styled Slazenger apparel collection in our

Drinkware as you've never seen it before

On-trend designs and multi-functional purpose bring new dimensions to drinkware for 2016. Geometrically-shaped surfaces and copper-look colouring align well with this year's look. While the ingenious integration of bottle and Bluetooth speaker in a single object makes for two gifts in one.

Decorate it your way

Quality decoration is the finishing personal touch to your gift. With more techniques than ever to choose from, Avenue is pleased to offer the most suitable methods for each type of item. Ensuring that your personal decoration is a true enhancement.

DECORATION INFORMATION

DEBOSSING

Debossing creates an indented image by applying a die to heat-pressed area.

- · Create a unique 3D look
- · Subtle tone on tone look
- · Adds perceived value
- · Great for real and imitaion leather product

LASER ENGRAVING

Laser engraving is achieved through using a laser beam to precisely etch decoration into a surface.

- · Create a high-class impression
- · Unique tone on tone
- · Superb result for metal, glass and

HOTSTAMPING

Hot stamping is debossing with a metallic finish, created by applying foil between the to-be-decorated surface

- · Exceptional superior impression
- · Create a unique 3D look
- Ideal for real and imitaion leather product
- Available in silver and gold finish

EMBROIDERY

Embroidery is decorating a fabric by stitching thread in a pattern.

- · Classic decoration technique
- · High value look
- · Suitable for both flat and irregular
- · Tread colours to match any logo
- Up to 12 colours per embroidery
 High impact wool stitch

SUBLIMATION

Sublimation is a printing method where ink is heated to turn into gas and form a permanent bond with the to-bedecorated material.

- · Premium full-colour photorealistic prints
- Suitable for polyester fabrics (minimum 60% polyester) and polymer coated products
- · Soft, flexible imprint that can even be applied over seams and zips
- · Decoration is resistant to fading and
- · Only suitable for white products

DOMING

Doming is used to create a 3D version of your image by shaping a raised surface beneath the print. A mould is formed, printed and filled with epoxy which is then hardened to maintain its shape.

- Create a 3D effect
- Strong resistance to fading or damage
- · Can only be applied to flat surfaces

TRANSFER

Transferring is done by first creating a screen print image on paper and then using heat and glue to transfer it onto the chosen article.

- · Ideal for fabrics
- Perfect for logos with many colours
- · Allows for extreme detail like small text
- · Free standing text
- · No contours required
- · Economical solution for multicolour printing of smaller quantities

SCREENROUND

Screen round is based on the same method as screen print but the product is turned during the printing proces, making this method suitable for curved surfaces.

- · Long lasting results
- · Apply sharp, high-quality decoration on curved products
- · Economic choice for large quantities
- · Multi-colour decoration available on a selection of pens
- · Ideal for text

SCREENPRINT

Screen printing or silk screen is a printing method where the image is imposed on a mesh screen with blank areas coated with an impermeable substance. Inks are then pressed through the mesh screen to produce clear, sharp images.

- Long lasting results
- Good cost-effective solution for larger quantities
- Allows single and multi-colour decorations
- · Ideal for text
- Can only be applied to flat surfaces

PADPRINT

Pad printing or tampon printing is an indirect offset printing process that involves ink being transferred from a engraved metal plate via a silicone pad onto the product creating the image.

- Great all-round cost-effective solution
- · Can be applied on virtually any shape
- Suitable for any surface texture, including soft products like stress balls
- Perfect for multi coloured logos
- Fast and economical

DIGITAL PRINTING

Digital printing is similar to inkjet printing. Micro droplets of ink are squirted onto a product to create an image. The ink is instantly cured by exposing it to UV light.
• Perfect for multi coloured logos

- Create a unique effect with matt, gloss or embossed finishes
- · Strong resistance to fading or damage
- · Ideal for small quantities
- · Can only be applied to flat or slightly curved surfaces
