

REFULLY CONSIDERED GIFTS

The gifts everybody wants to receive

Avenue's branded ranges deliver the quality, style and purpose your recipients would choose for themselves.

Leading brands for exceptional promotion

Promoting a favourable image is always easier when you've got established names to help you out. Avenue brings together an impressive collection of commercially available and promotionexclusive brands, all carefully selected for being decoration-friendly.

Fresh inspiration

For 2017, we are pleased to enhance our specially commissioned ranges with the addition of Design House Stockholm and Transit, which perfectly complement our existing collection of internationally trusted names. Avenue's established lines have also been refreshed with plenty of new gifts which reflect customers' ever-changing wishes.

Perfectly presented

All Avenue gifts are expertly decorated to your specifications and presented in attractive gift packaging. Everything taken care of so you can make the best possible impression.

Enjoy shopping with Avenue

Compliance

We want your promotional gifts and giveaways to make an impact for all the right reasons. Every care is therefore taken to ensure all our products are safe to use, so you can distribute them with confidence. By meeting relevant compliance standards, we make sure every item is produced in a way that upholds your good reputation.

All our products comply with prevailing EU legislation, of which we want to highlight some important regulations that are connected to our main product categories:

- REACH on concerned products which stands for the Registration, Evaluation, Authorisation and Restriction of Chemicals.
- Cadmium level restriction regulations.
- WEEE which stands for Waste Electrical and Electronic Equipment.
- RoHS II which stands for Restriction of Hazardous Substances.
- Food contact material regulations that provide the legislative framework for food contact products.
- Formaldehyde level restriction regulations for example for timber products.
- PCP level restriction regulations for example for timber products.

Please note that the legislation mentioned above will not be further featured at individual product level on the pages in this catalogue.

The full compliance overview can be found on page 332-333 of the Bullet section.

DRINKWARE

Drinkware Insulation Chart

Based on successful retail drinkware pieces, we have designed a better way to drink with style. Whether you prefer your beverage HOT or COLD.

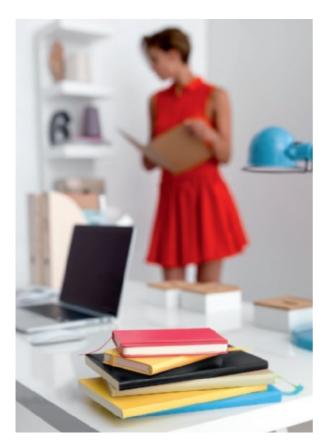

Insulation refers to how the materials and construction prevent temperature change – basically, the ability of a piece to keep a beverage at its original temperature, whether it's hot coffee or ice water. Insulation is achieved through double-wall construction, which has two purposes – to eliminate condensation from cold beverages on the outer wall and maintain the temperature of the beverage within the inner wall.

There are several types of insulation, and we offer them all. It just depends on your budget and the type of performance you're looking for in a drinkware product.

Hours indicated may vary depending on item construction, material, ambient conditions, and use.
