ELEVATE

Welcome to Elevate 2017

Elevate raises the standard in promotional apparel by combining the looks you'd expect in retail, high quality which delivers great wearability and innovative design that's optimised for custom decoration. The result is an exclusive range of desirable textiles which perform superbly, both on the body and within your promotional strategy. The 2017 collection is once again comprised of three distinct line-ups – Essential, Life and Select – that make it easy to find what you need, with nine new styles added to the mix.

Welcome to Slazenger 2017

Established for 135 years, Slazenger is one of the oldest surviving sporting brand names. Internationally recognised for its presence at some of the world's most famous competitions, this enduring name upholds a unique and distinguished heritage. Slazenger successfully balances past with present by delivering on-trend retro styling with contemporary quality. And with four new styles available in our 2017 collection, the momentum keeps on going. If you're looking for a platform which reflects your own ability to keep your eye on the ball over the long term, Slazenger's got what it takes.

WHAT'S NEW IN THIS CATALOGUE?

We are always looking for ways to improve. That's why we have made some additions to this catalogue that we think you're going to like.

Elevate and Slazenger styles are combined and organized by product group. They are presented with a similar layout showing detailed product information such as decoration techniques per individual colour, care instructions, sizing and packaging information and a product-showing colour-index.

Next to this we have created handy overviews on decoration, new styles, fits, icons and a detailed jacket guideline. Last but not least we finish up with the full range of caps and two WorldSource programs.

Decoration techniques per individual colour

Elevate and Slazenger styles combined Essential, Life and Select joined by Slazenger

Jacket guideline with waterproof / breathability rating and temperature reference

Full range of branded and non-branded caps

FINDING THE RIGHT LOOK HAS NEVER BEEN EASIER

Corporate, sporty or casual – we make it easy to find the right combination of style and performance, with seven distinct apparel categories to pick from.

ELEVATE YOUR BRAND LIVES HERE

ESSENTIAL

Look for this tab throughout the catalogue.

Sometimes you need apparel that works a little harder. That gives you a little more for your money. Our Essential collection does both, with durable fabrics that can be washed and worn again and again. At budget-friendly prices, the Essential collection is a smart choice for your bottom line.

LIFE

Look for this tab throughout the catalogue.

Our versatile Life collection is stylish – but not too stylish, if you know what we mean. These are great-looking pieces that anyone can be comfortable wearing regardless of their fashion sensibilities, giving them a broad appeal that's perfect for a range of promotional possibilities.

SELECT

Look for this tab throughout the catalogue.

You know them as soon as you see them: The forward-thinkers. The risk-takers. These are brands that are defined by their bold new ideas, and they demand apparel that's every bit as dynamic. Our Select collection features fashion-forward styles, cutting-edge technical details and high-performance materials that – like the brands they represent – are always a step ahead.

Slazenger Originals offers recognised quality at an entry-level price point. Clean lines, subtle Slazenger detailing and ample space for your brand message come together in a wide range of made-for-decoration styles. A uniquely accessible opportunity to benefit from trusted branding, this simple solution for promotional basics ups the game when it comes to affordable corporate wear.

Slazenger Heritage translates 135 years of tradition into up-to-date quality casual wear. Retail-inspired looks bring nostalgic retro styling to the promotional arena, providing 'real-feel' clothing where your brand message sits perfectly alongside Slazenger's world-renowned image. Subtle yet distinctive styling capitalises on Slazenger's longevity to give you a respected canvas for your decoration.

DECORATION? YOU'VE GOT OPTIONS.

Take a great style and make it your own with one of our six unique decoration methods. Whether you want to keep it simple or are looking for something bolder, we'll help you create the right look with a method and imprint location that work for your brand.

D

Deboss

Deboss creates a subtle tone-on-tone look with a dye that's heat-pressed into the material.

- Ideal for waterproof fabrics
- Striking 3D appearance
- Apply to almost any location
- Unlimited washability

T

True edge™ Transfer

This cutting-edge heat-transfer process produces remarkable clarity and precision.

- Allows for extreme detail like small text
- Four-colour process or spot colour
- Perfect for logos with many colours
- Alternative to embroidery for thin garments
- Maintains integrity of waterproof fabrics

E

Embroidery

With thread colours to match any logo, embroidery is always a popular choice.

- Classic look
- Up to 12 colours per embroidery
- Perfect for left/right chest and left/right bicep

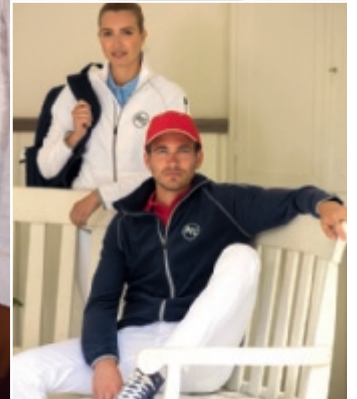

L

Laser engraving

Laser can be applied at virtually any location.

- Smooth, glossy finish
- Unlimited washability
- Best on mid-range colours

S

Screenprint

Time-tested decoration method that enables vibrant and durable graphics on virtually any material.

- Economic choice for large multi-coloured decoration
- Great choice for a distressed look and feel
- Ideal technique for T-shirts

I

Infusion™

Infuses your logo into the fabric creating an untouchable decoration with razor sharp detail.

- Razor sharp with higher resolution
- Offers a comfortable, breathable decoration
- Untouchable
- Offers unlimited colours for one set up

FIT FACTS

Your guide to comfort

Elevate products are designed to give the wearer optimal fit options. Whatever the desired look or end use, we have a cut for your every need. The silhouette of the products is specified to take the guesswork out of choosing the right garment for your wearing needs.

Regular fit

Not too tight. Not too loose. Classic cut that follows the shape of the body with ease of movement.

Global fit

Slightly looser than the regular fit for added comfort.

SIZING CHART

This sizing chart is intended to be a guide only for our different fits. While we do our best to ensure all our sizing is consistent, you may find that some styles vary in size.

Regular fit to fit body measurements	MENS							
	Regular fit	XS	S	M	L	XL	XXL	XXXL

Fabric feature

Piqué refers to a weaving style which is characterized by raised parallel cords or fine ribbing. It creates a fine textured surface that appears similar to a waffle weave.

* Our temperature ranges are a guideline only to assist in choosing the warmth you want and the product you need. Weather conditions such as sun, wind, humidity, precipitation and personal reactions to these cold factors all effect individual comfort ranges. Activity will also influence personal comfort levels as temperature guidelines are determined from test results performed at a resting state. Everyone experiences temperature differently and these ratings are intended for reference only.

ICON INDEX

Moisture management is achieved at the Yarn stage, where the microfine yarns create a capillary action to channel sweat away.

Stay warm and feel comfortable with a breathable insulated membrane, and resistance barrier to extreme elements.

Fabric is engineered to prevent snagging.

Products allow moisture to escape from the body.

Products made of waterproof materials to keep moisture out.

The product's ability to block cold air flow from permeating the fabric.

Product provides protection from UV rays. UPF value represents the fractional amount of sun's harmful UV rays that pass through a fabric.

The skilful blending of natural and man-made yarns results in fabrics that have easy care properties.

Unique finish that controls bacteria growth, prevents odours and maintains garment freshness.

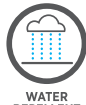

Three materials of differing characteristics, are joined together, creating a composite fabric with superior performance.

Unique yarns or fabric finishes that transport moisture to the outer surface.

Permanently covering the inner seams with waterproof tape for long lasting waterproof protection.

Fabric surface is treated to repel water.

Protect yourself from wind and rain. This technology offers complete comfort in a variety of conditions.

Fabric content provides stretch allowing for a more comfortable fit.

Fabric finishes are used to resist moisture penetration.

Product helps prevent wind from penetrating.

Inside opening for easy decoration access.

Integrated hood.

Hood that can be removed.

Integrated hood that can be folded and stowed away in the collar.

Fabric or garment has been treated during manufacturing to minimize shrinkage during washing.

A finish used on the fabric that makes ironing the garment easier.

YKK® zipper used in the garment. YKK® is the world's leading zipper brand and represents high quality.

Integrated hood.

Hood that can be removed.

Integrated hood that can be folded and stowed away in the collar.

Fabric content includes Elastane which provides stretch allowing for a more comfortable fit.

Permanently covering the inner seams with waterproof tape for long lasting waterproof protection.

A treatment applied to fabric that resists the formation of little balls or pills on the surface of the fabric.

The inside of the neckline has been covered with tape from shoulder to shoulder. This enhances comfort.

Products allow moisture to escape from the body.

Unique yarns or fabric finishes that transport moisture to the outer surface.

A finish used on the fabric that makes ironing the garment easier.

Fabric surface is treated to repel water.

Fabric finishes are used to resist moisture penetration.

Products made of waterproof materials to keep moisture out.

The product's ability to block cold air flow from permeating the fabric.

The product's ability to block cold air flow from permeating the fabric.

Rules & Regulations Overview

TEST METHOD / STANDARD	EUROPEAN DIRECTIVE / REGULATION	CATEGORY	REMARKS
AZO	EC/1907/2006 REACH Regulation Annex XVII – restriction on the manufacture, placing on the market and use of certain dangerous substances	Textile Garments & Caps	Certain Azo dyes can degrade to form carcinogenic or suspected carcinogenic amines.
PHENOLS (PCP/ TeCP)	EC/1907/2006 REACH Regulation Annex XVII – restriction on the manufacture, placing on the market and use of certain dangerous substances	Textile Garments	TeCP are lower derivatives of PCP & has similar properties, used to prevent mold when growing cotton and when storing/transporting fabrics.
PHENOLS (PCP ONLY)		Wooden products - (Children's & Food Contact)	PCP is a polychlorinated compound used as a preservative to wood, leather, and textiles. PCP is persistent in the environment, harmful to human health, and toxic to aquatic environments. Burning products with PCP may produce highly toxic substances.
PHthalATES	EC/1907/2006 REACH Regulation Annex XIV and XVII + SVHC Candidate List – restriction on the manufacture, placing on the market and use of certain dangerous substances	Textile Garments & Children's product	Phthalates are a class of organic compounds added to plastics to increase flexibility. Phthalates are released from plastics and may cause damage to the liver, kidneys, or other organs.
CADMIUM	EC/1907/2006 REACH Regulation Annex XVII – restriction on the manufacture, placing on the market and use of certain dangerous substances	All Products	Cadmium is a heavy metal and class 1 carcinogen, exposure to cadmium over a long period of time via food, water, or air can cause kidney and lung damage, prostate cancer, and reproductive damage.
APEOs	EC/1907/2006 REACH Regulation Annex XVII – restriction on the manufacture, placing on the market and use of certain dangerous substances	Textile Garments	APEOs are known endocrine disruptors, they are oestrogenic, and have carcinogenic properties that affect the hormonal system.
PFOS	EC 2004/850 + EU 757/2010 Maximum Concentration Values of PFOS	Textile Garments	PFOS are animal carcinogens and have been found to potentially cause liver problems, testicular tumors, mammary gland tumors, prostate gland problems, and endocrine disruptive effects, among other things.
FORMALDEHYDE	NATIONAL LEVEL ·Decree 210/1988, Finland ·Official Gazette, France ·Gefahstoffverordnung, Germany ·Commodities Act Decree on Formaldehyde in textile, Netherlands ·Product Regulation No. 922, Norway	Textile Garments & Caps Leather Cosmetics	Formaldehyde is a volatile compound used widely in apparel and textile manufacturing as an anti-creasing and an anti-shrinking agent. In addition, formaldehyde is often used in polymeric resins (e.g. phenol-formaldehyde and urea-formaldehyde). Formaldehyde is a suspected carcinogen. In addition formaldehyde is an irritant and may cause allergic reactions.
ALLERGENIC DYESTUFFS	NATIONAL LEVEL § 30 of Food and Commodities Act, Germany	Textile Garments & Caps	These dyestuffs enter the body through the skin which causes allergic contact dermatitis
CARCINOGENIC DYESTUFFS	EC/1907/2006 REACH Regulation Annex XVII – restriction on the manufacture, placing on the market and use of certain dangerous substances	Textile Garments	Have substances acting as an agent or promoters making the body cells susceptible to DNA damage
BENZENE	EC/1907/2006 REACH Regulation Annex XVII – restriction on the manufacture, placing on the market and use of certain dangerous substances	Air freshener Markers Glue	Benzene can be used in a variety of products, for instance as stabilizer in plastics and certain types of rubber. Benzene is both toxic and carcinogenic, and the presence of benzene in toys & consumer products has therefore been restricted.
NICKEL		Wrist-watch cases, watch straps, rivet buttons, tighteners, rivets and zippers and metal marks contained in or intended to be used in garments	Nickel can cause allergic contact dermatitis (ACD). Signs of ACD range from dryness, chapping and inflammation of the skin to eczema and blisters.
TOLUENE		Adhesives, Nail polish, Cosmetics, Rubber cement, paints, Paint thinners, lacquers, Stain removers, Dyes and Inks	Toluene is a sweet-smelling, industrial solvent and a volatile organic compound (VOC).
